

Department of the Army, DoD

§ 644.376

care and handling of excess and surplus real property pending its disposal in accordance with the FPMR.

§ 644.372 Care and custody through interim use.

(a) *General.* Upon receipt of initial information that real property is excess, the DE should promptly initiate planning for interim productive use. Interim use should be planned to save care and custody expense but must not interfere with, delay, or retard transfer of the property to another Federal agency or its disposal otherwise. Any permit or lease must have the prior approval of GSA, and shall be for a period not exceeding one year and shall be revocable on 30 days' notice (FPMR Sections 101-47.203-9 and 101-47.312).

(b) *Permits to other Federal agencies.* Interested Federal agencies will be afforded a priority in the interim use of excess and surplus real property. The permit will require the Federal agency to perform care and custody and perform routine maintenance. 41 CFR 101-47.203-8, provides for temporary assignment, conditional transfers, and rental or user charges for use of excess property by Federal agencies.

(c) *Leases for non-Federal use.* Leases of excess and surplus property are made under authority of the Federal Property and Administrative Services Act of 1949, as amended and AR 405-80. Such leases are subject to the Economy Act (40 U.S.C. 303b), and must be for a money consideration only. The lessee can and should, however, be made responsible for ordinary maintenance and restoration as required by standard Corps of Engineers lease forms. Where a portion of an excess or surplus installation is leased, it may be advantageous to enter into an agreement with the lessee for care and custody of the remainder. The agreement cannot provide for a reduction of rental for the portion leased. The Economy Act may not apply in some cases where industrial plants are determined excess subject to the National Security Clause or similar recapture conditions. Such cases should be coordinated with DAEN-REM on an individual basis.

§§ 644.373-644.375 [Reserved]

RETURN OF PUBLIC DOMAIN LANDS AND LANDS OBTAINED ON A TEMPORARY BASIS FROM ANOTHER FEDERAL AGENCY

§ 644.376 Procedure for disposal of public domain land.

(a) Lands withdrawn or reserved from the public domain, together with Government-owned improvements, which have been determined to be excess to the department, after screening with other DOD agencies and the U.S. Coast Guard in accordance with §§644.333 through 644.339, will be processed for disposal in accordance with 43 CFR 2370-2374 and §644.381 of this part. The DE will file a Notice of Intention to Relinquish as provided by 43 CFR 2372.1. The notice will be filed in the Bureau of Land Management (BLM) Land Office having jurisdiction.

Excess buildings and improvements on the property should be left in place and no disposal action taken thereon pending further instructions from BLM, unless it is determined that they should be abandoned in accordance with the procedures set forth in §§644.472 through 644.500. A copy of the Notice of Intention to Relinquish submitted to the appropriate BLM Land Office will be transmitted to HQDA (DAEN-REM) Washington, DC 20314 and to the appropriate GSA regional office.

(b) If any restoration, or other work, is proposed to be performed on the land, the matter will be forwarded to DAEN-REM for prior approval. Where the DE recommends disposition of the land by GSA as excess property rather than return to the public domain, no restoration of the property will be proposed (see 43 CFR 2372.1). Generally, lands which are unimproved, or contain only minor improvements, will be recommended for return to the public domain. Exception to this procedure should be made where development surrounding, or in the vicinity of the land, has changed its character, although the land itself has not been improved. Another exception would be the situation described in §644.350(d). Generally lands which are extensively improved will be recommended to BLM for disposal as excess property.
